

In The Name Of Canada

To many thousands of needy children in the dark corners of the world, Canada is a fairy godmother whose magic wand has produced everything from milk and warm clothing to the love and care of devoted foster parents.

In 13 years, nearly 7 million pounds of vital relief supplies have been channeled through the United Nations Service Committee into the empty hands of starving children and desperate adults. And every ounce of it has been distributed in the name of Canada.

To continue this heart-warming work, the USC will launch its fourteenth appeal for funds on September 8th. The objective is \$200,000 — the highest ever set to be raised by Christmas Day.

The money will be used to finance some 50 projects in eleven countries in Asia and Europe with the largest amount still earmarked for Korea, to help the most helpless of all war victims, the orphans. The care of these many children must extend beyond their basic needs for shelter, food and clothing, to include rehabilitation through education and vocational training.

In India, USC work is mostly educational and medical, assisting isolated villagers, slum dwellers and beggar children.

In Greece, mountain farmers made homeless by the war will be enabled to rebuild homes and begin a modest livestock and olive tree program through USC loans. The two most important pilot projects are community development schemes in Northern and Central Greece.

In the Middle East, the USC program includes commercial training for young Arab refugees, and midwifery training to replace primitive and often dangerous practices that claim the lives of thousands of mothers and babies each year.

One of the most urgent work programs is the dispatch of 55,000 baby clothes to the United Nations for Arab refugee babies this year. Baby clothes consist of 4 diapers, 2 baby vests, 2 nightgowns and 2 jackets — outfits not put out, or made up from material around the house; 1 towel 1

MEDICINE HAT MAN KILLED IN JET COLLISION

The R.C.A.F. Monday identified four of the five persons killed when two jet planes crashed into a hospital at the Canadian air base near Medicine Hat, Friday.

One of the victims was P/O George Ross Rayment, 25, of Medicine Hat, a brother-in-law of Mrs. Kenneth Gillrie of Didsbury. P/O Rayment was a former member of the Medicine Hat Air Cadet Corps and was a graduate of Royal Rhodes Military College.

cake of soap and 4 safety pins. The "pull-over Parade", organized to send 25,000 long-sleeved, high-necked pull-overs to shivering Korean orphans, also needs enthusiastic volunteers. Grey wool can be obtained by writing to the United Nations Service Committee, 78 Sparks Street, Ottawa 4.

Every garment and every dollar's worth of aid is distributed in the area of greatest need, regardless of creed or nationality.

Each year Dr. Leola Husemanova, USC executive director, undertakes a world tour to ensure efficient administration of all USC projects and to keep in close contact with human need at grass roots level.

"This year I saw progress everywhere, even in suffering Korea," she reports. "But the need is still desperate. It is absolutely essential that this vital Canadian relief and rehabilitation program continue."

In an uncertain world where goodwill, understanding and friendship between nations is the very basis of world peace, Canadians are fortunate to have this unique non-denominational organization as their reliable ambassador to serve in areas of greatest need. The forthcoming appeal of the United Nations Service Committee is warmly endorsed by the Prime Minister of Canada.

To build a happier tomorrow for all the world's children, the USC needs and deserves the support of thinking citizens everywhere.

A matron at the Tulsa, Okla., Juvenile Shelter, holds 20-week-old Paul Andrew Ready, whose parents, police said, traded him for a 1957 model pickup truck. The Ready's said they were en route to California where they hoped to find work. The parents and truck owner, Jesse Lester Burger, 42, are being held in "protective custody" pending further investigation.

No Gain At Dairy Break-In

A break-in at the local Crystal Dairy one night this week went for naught as far as the would-be safe-crackers were concerned. They apparently made entrance at the rear of the premises, knocked the dial off a large safe, and then were stymied.

Town Const. W. Dubbin is assisting R.C.M.P. from Olds and a fingerprint expert from Red Deer in the investigation.

Reports have it that a similar job was done in Olds the same evening with the same results.

NEWLYWEDS HONORED BY MANY FRIENDS

Over 70 neighbors and friends gathered recently to honor Mr. and Mrs. Gordon Robertson. After the noise subsided the newlyweds invited them all in to see their suite, and then the groom, in a top hat and cut-away coat, and the bride in a flowing veil, were put onto a hay rack and taken to Mr. and Mrs. W. Bohannon's home, who kindly offered the use of their rumpled room for the evening. After an evening of contests and entertainment, the bride and groom were seated at a table and gifts were brought in on a decorated wheelbarrow. George and Gordon thanked everyone for the lovely gifts and evening planned in their honor by the Jackson W.I.

Letter Mailing Rates Not Affected

Taking away second-class mailing privileges from newspapers and periodicals would not enable the government to make any substantial change in letter mailing rates, the Commons public accounts committee was told Tuesday.

The evidence came from the deputy postmaster general, after the committee had heard from the auditor-general that there is an estimated \$18,000,000-a-year loss on second class mail.

Mr. Sellar, auditor-general, and watchdog of the treasury, suggested in his last annual report to Parliament that the Post Office Act should be examined to bring it up to date with respect to second-class mailing privileges.

Mr. Sellar, whose main job is to keep a close eye on government spending, said he would like to see the legislation clarified to the effect that second class mailing does not go to such publications as reference books that cannot be described as newspapers. He said that many advertising firms send out material on the second class list, but which are not properly described as newspapers.

This Week's Hail Report . . .

Following is a report from the W.R.D.C. hail suppression unit that is situated on the butte just west of town and covering an area of 750,000 acres, which includes the M.D. of Kneehill, M.D. of Rocky View and the City of Calgary.

Had suppression operations were conducted on four days during the past week. The most notable storm occurred on Thursday, August 21. This was a general storm which moved southward across the Plains out of the Central Alberta Rockies. Some intense rainfall was reported in various spots from Penhold southward, with W.R.D.C. radar gauge on the butte west of Didsbury recording nearly a half inch in about 30 minutes. Considerable lightning was also noted throughout the area, with some brief power outages reported.

While rain showers and lightning were general in and around the protected area, some very bad hail was reported west of the project. Rocky Mountain House had bad hail. One spot, about 10 miles west of Madeline reports the hail across the size of golf balls and their crops destroyed. Another, but unverified report, indicated hail 18 inches deep south of the Sarcee

THE LOCAL NEWSPAPER MAINTAINS ITS INFLUENCE

- How often a successful executive, far from his small-town birthplace — maintains his contacts through regular receipt of his weekly newspaper.
- There is nothing quite like a small town weekly for neighborly news and intimate contacts.
- People in the advertising business talk about selected audiences — sharply focused circulation. They have learned from experience that when a publication is specially edited to appeal to the specific interests of a smaller group of people, its opportunities to make sales are multiplied many times over.
- The weekly newspaper is that kind of publication. Whether its circulation is a few hundred or a few thousand, it represents effective circulation.
- Gather the towns-people and farm folk around you when you advertise. Surround yourself with friendly neighbors — deliver your advertising message through your local weekly newspaper.

58.2 Per Cent of Canada's population live in places of 10,000 or Less. THESE ARE WEEKLY NEWSPAPER MARKETS.

AND THE BELL WILL TOLL . . .

Yes, kids, the holidays have just about run the course and come Tuesday it's back to the brush and the blackboard. Don't tell us the break from studies was too short, we've been there. One little story we like to remember was on one of those school opening days when our hair was a little thicker on top than it now is. My pal turned as we entered the halls of learning and whispered: "Jim, you sit by the blonde and I'll move close to the brunette." As those of you who know us the blonde ran out of the money, the lass running our house is not a blonde and never has been one. By the way we did pass our tests that year, bookwise that is, without the help of the blonde. One suggestion we have for the male students: "Keep your eyes on your books, not blondes, brunettes or redheads. Believe me there's plenty of time for that later."

Who Wins ???

A few local businessmen have the misconception that it's not necessary to advertise their wares or their products through the local press. Being in the advertising business we can't go along with that line of thinking. Your paper (this paper), takes a great deal of pride in the fact that we have a great deal to do with the many improvements that have sprung up since we started ramblin' and at some times just roamin'. Did any of these projects help you? Our opinion is that they helped everyone, even the free loaders. When you fail to advertise yourself, or your business, you're also failing to advertise Didsbury and district, the spot where your bread and butter comes from. We always feel a little guilty when we purchase an item out of town and then find out, too late, that the same item was available right here, at a comparative price, but nobody let us know. Our punch line hasn't taken a switch, it's the same "Advertising doesn't cost, it pays!" Pays to keep your name in front of the public, pays to keep people coming to "our town", pays for hospitals, public works, hospitals, hard-top roads, memorial centres, etc. - etc. Have we made a point?

SERVICE BOARD NOTES

W. K. SNYDER
Agricultural Service Board

GARDEN SLUGS: Lately I have been receiving calls from people who are bothered with garden slugs. This is the time of year when they are quite troublesome. Slugs are soft bodied, slimy creatures, are legless and have no obvious head. Normally they hide by day under rubbish lying on the ground. At night they climb plants and feed on them. Practically everything green composes their diet.

1. Control: General sanitation. Clean up all boards, boxes etc., under which they can hide by day.
2. Metaldelyde. This is material available from most drug stores and seed houses; is usually considered the best slug control. Directions for use are given on the container.
3. Ordinary lime, placed in a belt of an inch in width on the surface of the soil kills most slugs that attempt to cross it for as long as it remains dry.
4. The emptied halves of grapefruit or watermelon placed cut side down among infested plants acts as a trap. Allow space for entry under these cut out shells. The slugs will crawl inside of them, sometimes in great numbers during the space of one day. Examine these traps occasionally and destroy any slugs in them with boiling water.

No Adequate Defence

In a world filled with fatuous nonsense and double-talk it is tragic that the subject of defence brings out the most foolishness. Last week Canada's defence minister told the House of Commons: "We have an adequate defence to meet the possible attack of today." That just isn't so.

Such a statement badly ignores the fact that it requires only one plane, carrying a thermonuclear bomb, to get through our defences and wipe out any one of our major cities. And despite our electronic warning lines and the much-touted air forces of U.S. and Canada the defence chiefs make no claims that they could stop all incoming bombers. At best they hope to knock down a lot less than half of the invaders.

that attempt to cross it for as long as it remains dry.

THE
HomemakerBy HELEN HOWARD
District Home Economist

Dear Friends:
It will soon be back to school
again for the sun-tanned small fry
and teens in your family. It
seems all too soon since school was
out (or does it?)

Back To School Blues
When Junior is underfoot,
I wonder

If I can stand his
demon thunder.
But when he's back at school,
I frown.

Because the silence gets
me down.
My heart is spineless as
an omelet.

I do so miss
my alone bumble.

— Margaret Fishback
Next week we will send along
some ideas for school lunches. To-
day some suggestions for the head
of the house, who are preparing the
"back-to-school" wardrobes:

Washing Worries
Washable fabrics — linen, cotton,
nylon, orien, Dacron, Arnel
and all other synthetics, with the
exception of rayon and acetate.

Garments made of rayon, acetate
or wool should be dry cleaned unless
the label states "washable."

Wash white synthetics separately.
Iron all synthetics with a warm,
not hot iron.

Bleaching Briefs
Never bleach silk, wool, rayon,
acetate, vicara, fortisan, delicate
sheers (nylon, orien, etc.) em-
bossed cottons or "drip dry" cot-
tons.

Stubborn Stains
Soft drinks: Soak or sponge im-
mediately with cold water. If stain
persists work glycerine into the
stain. Let stand one-half hour and
rinse with water.

For other stain removal methods
write for our free pamphlet: "Stain
Removal." Every home needs one.

New Ways For Mending
Wouldn't you welcome some sug-
gestions to make that never-ending
task of mending a little easier?

Write for or bulletin "New Ways
of mending," which includes mend-
ing, patching and darning hints.

Write to Helen Howard, district
home economist, Oids, for these
bulletins that may help you with
your back-to-school preparations:

1. New fabrics.
2. Stain removal.
3. Best Ways for Mending.
4. School lunches and
lunch boxes.

Next week: Some hints for
school lunches.

Notes From D.A.

By HOWARD FULCHER
District Agriculturist

Horns on feeder cattle have no
value in the feed lot; they often
cause uneasiness for the more tim-
id feeders; in transit they can
cause injury and in marketing they
will be discounted. Getting rid of
these horns is a good management
practice and should be practised by
all livestock men.

The best time to dehorn is before
two months of age, using caustic
soda, caustic potash - dehorning
paste, or it may be done at brand-
ing time with spoons or tubes.
However, in many cases this is not
done due to various reasons.

Most calves are now four to six
months of age and if they have
horns it is wise to remove them be-
fore weaning, allowing for complete
healing before the calf leaves the
cow. There are a number of meth-
ods which can be used, the saw,
sawger or clipper dehorner. Each
has some advantages and some dis-
advantages; the dehorner is faster
while the saw will cause less
bleeding.

Early fall dehorning has many
advantages. It may be done as
mentioned above when the calf is
on the cow, and it is usually much
better weather. There is often a
few days of bad harvesting weather
and these days spent in dehorning
will pay dividends.

If you sell feeders and they are
dehorned, usually you command a
higher price. If you are feeding
your own out they go into feed lots
without the shock of dehorning.
This lessens the danger of sickness
and hastens the feeders' count on
full feed.

If you are buying and the stock
you purchase are horned, dehorn
them as soon as they quiet down so
that they suffer no great set-
back after they are on feed. For
feed lot efficiency and better mar-
keting dehorn it pays.

EGG MARKETING
VOTE UNDERWAY

The Alberta Federation of Agri-
culture and the Farmers' Union
have spent much time and energy
assisting poultry producers in hav-
ing a marketing board plan pre-
sented for a plebiscite.

Ballois are now in the hands of
producers and must be returned
before August 30. The secretary of
the Egg Marketing Committee
urges everyone to vote. Unfortun-
ately, owing to the undemocratic
voting procedure set up under the
Poultry Marketing Board Act,
every citizen who fails to
vote is counted as having voted
against the plan.

Innisfail Golf Tourney

Vince Tedeschi, president of the
Innisfail Golf and Country
Club, today announced that the
largest contingent of golfers in the
history of the sport here were ex-
pected to take part in the Annual
Labor Day Tournament to be played
over the local sports nine hole
course. Play in the event will
start on Sunday, August 31st, at
10 a.m. with the nine hole qual-
ifying round, and continue through
Monday.

Work on the Innisfail course
during the past summer, Tedeschi
said, has placed the local layout
in the best condition in over a
quarter of a century. Facilities
at the 9th hole and the clubhouse
about this year are being altered to
handle a record number of players.
At the week-end invitations to
former contestants were mailed
out, however, the tournament here
over the Labor Day Holiday week-
end is open to all amateur golfers.

Clubs most frequently represented
in the Annual Innisfail Labor
Day Tournament records show are:
Red Deer, several Calgary
Clubs, Drumheller, Hanna, Dids-
bury, Carleton Place, Sylvan
Lake, Stettler and many Edmonton
Clubs.

Canmore Golf Club, it was learn-
ed at the week-end, will have near-
ly a dozen players on hand for the
qualifying round in the Innisfail
Tournament, Sunday August 31st.

DISTRICT NEWS

M.V.B.C. NEWS

(From Our Own Correspondent)

Each week we receive fresh applications from students who will be coming here for the winter months. The enrollment will be considerably larger than last year. A few of last year's students will be returning, but even then, there will be a large freshmen class, which will make up for that decrease. We are looking forward to the winter months and am sure our readers are also anticipating these fine young people being in their midst. Friends of the town have been very good to our students and we greatly appreciate this courtesy.

President and Mrs. Taylor, with their family, were in Edmonton over the weekend. It was the occasion of the 10th wedding anniversary of Rev. and Mrs. Auburn Witt, who have recently returned from Africa and who will be on the faculty this season. It was also the occasion of the return of a veteran missionary for the last time. Mrs. Florence Finlay, mother of Mrs. Witt, came back from a long period of service in Nigeria and will not be returning. She herself is a trained nurse and has been instrumental in promoting hospital work and medical help for natives in that land. She will be staying with another daughter, Mrs. Raymond Young, in Edmonton for a time.

Mr. and Mrs. Ormond Sherick are again on campus after spending a number of weeks in Vacation Bible school work at different points. Miss Louise Nagel is also here for a day or so and will be returning to Edmonton to continue work there until college opens in the fall. These young people will be taking their fourth year of work during the winter. Arnold Dietz and Ray Stuffer have also been in this work for the summer. Arnold will be leaving for further work in Bethel College, Indiana, within a few days, while Ray has gone on to Adhabeton to help in D.V.B.S. for the coming week.

The ladies have again come to help with the canning. Mrs. Arthur Eby will be in the kitchen this winter and she is now making preparations. She appreciates the assistance she is receiving. Some fruit has been sent from B.C. for the school.

This week will be most eventful for the Traub family; Lavern, the second son of Rev. and Mrs. H. A. Traub, will be married to Miss Doreen Wolf, Reg. N. of Kelowna, B.C., this Saturday. They will reside in Didsbury and Lavern will be teaching piano. He has done well in the college in this capacity and students have appreciated his thorough work with them.

Mervin Traub has finished his work in Banff and after he attends his brother's wedding will go on to Cascade College to take further work there. Mervin graduated with his Bachelor of Arts in Portland. His aim is the foreign mission field.

Mrs. Lydia Suder returned to the campus after an eventful summer. She is now a "Grandma." She spent some time with her son and his wife in Montreal before she went to work at Winona Lake School of Theology. She is pursuing work in the field of theology to secure her Master of Theology degree there.

Every once in awhile we see friends of the school helping with the erection and completion of the Student Centre. These are all busy men, too, but some have taken a little of their time to help with the work. We deeply appreciate their help and say "thanks" to them, through the medium of this column.

WEDDINGS

REGNIER — KLOBERDANZ

A very pretty wedding was solemnized in the Roman Catholic Church at Water Valley on Friday, August 22nd, when Richard Octave Regnier, son of Mr. and Mrs. M. Regnier of Sundre, and Theresa Josephine Kloberdanz, daughter of Mr. and Mrs. J. Kloberdanz of Water Valley, Father Hamilton officiated.

Given in marriage by her father, the bride was beautiful in a floor-length gown of net over satin. She wore a finger-tip length veil and carried a bouquet of red and yellow roses.

The bride was attended by Miss Stella Regnier, sister of the groom, groomed in a lovely blue net over satin, and Miss Susan Kloberdanz, sister of the bride, in a printed nylon gown.

The groom's attendants were Mr. Leo Kloberdanz, brother of the bride, and Mr. Charles Regnier, brother of the groom.

The reception was held at the Kloberdanz home with the toast to the bride being given by Father Hamilton. The newlyweds will make their home in Didsbury.

WEST NOTES

(From Our Own Correspondent)

The Elton Willing Workers held their August meeting at the home of Mrs. M. Campbell. A crib comforter was made for the Red Cross. The next meeting will be held at the home of Mrs. A. L. Hogg.

Mr. Frank Hesselton returned last week from Calgary, where he had spent 10 days taking medical treatment.

Mrs. C. S. Hogg and family returned to Calgary on August 17th after spending two weeks visiting with Mr. and Mrs. A. L. Hogg.

Mr. and Mrs. W. Papke, of Vancouver Island, arrived last week by plane to visit relatives in Alberta, among them the former's sister, Mrs. L. Banting.

Mrs. J. Blashaw has been helping out at the home of her daughter, Mrs. Elmer Luft, who recently underwent surgery in the local hospital.

Mr. and Mrs. M. Campbell were dinner guests of Mr. and Mrs. R. Befus on Sunday.

Mr. and Mrs. Wasnek of Yorkton, Sask., returned to their home after spending a week at the home of their daughter, Mrs. Gordon Befus, and a week in Calgary with their son.

Harvesting has started in the district, with the hot weather ripening the crops very fast.

Mr. C. Russell is again a patient in the Didsbury hospital. We wish him a speedy recovery.

LIGHT YOUR WAY...

... WITH BIBLE STUDY

The Christian Church prays: "I believe in God the Father Almighty, Maker of heaven and earth; We may call this the first article of the Apostles' Creed. Have you ever wondered just what is fully meant by this brief statement of faith?"

We might say this is what it means. I believe that God has made me and all creatures; that He has given me my body and soul, eyes, ears, and all my members, my reason and all my senses, and still preserves them; also clothing and shoes, meat, drink, house and home, wife and children, fields, cattle and all my goods; that He richly and daily provided me with all that I need to support this body and life; that He defends me against all danger and guards and protects me from all evil, and all this purely out of fatherly, divine goodness and mercy, without any merit or worthiness in me for all of which it is my duty to thank and praise, to serve and obey Him.

From the above, we confess that God made us; that God preserves us; that God provides for us; and finally that God defends, guards and protects us. In short, our entire life is in the hands of God.

We furthermore confess that God does all this for us, not because He owes it to us - as some foolishly claim "The world owes us a living" - but because God loves us. For we are worthy of none of these things. We have neither earned them nor do we deserve such wonderful treatment from God. As we thus consider ourselves and the goodness of God, we also must say: "God is love."

HALF A CONSCIENCE . . .
An old fellow had a conscience
that troubled him. At last he went
to a farmer and said he had stolen
a rope from him a while back. The
farmer forgave him and he went
away. But he had no piece of
mind. He had not told the farmer
that there was a cow at the end of
the rope that he had stolen.

CHRISTIAN SCIENCE

The practical importance of the
healing works of Christ Jesus to
mankind today will be brought out
at Christian Science services Mon-
day.

Scriptural readings in the Les-
son Sermon entitled "Christ Jesus"
will include the account in John
(9:1-7) of Jesus' healing of the
blind man.

From "Science and Health with
Key to the Scriptures" by Mary
Baker Eddy will be read this ses-
sion: "Christianity as Jesus taught
it was not a creed, nor a system of
ceremonies, nor a specific gift from
a ritualistic Jehovah; but it was
the demonstration of divine Love,
casting out error and healing the
sick, not merely in the name of
Christ, or Truth, but in demon-
stration of Truth, as must be the
case in the cycles of divine light."
(135:26).

The Golden Text is from John
(12:46): "I am come a light into
the world, that whosoever believeth
on me should not abide in dark-
ness."

MOUNTAIN VIEW W.I.
REPORT SUMMER MEETINGS

The members of Mountain View
W.I. report a busy summer. The
July meeting was held at the home
of Mrs. Gebers, with nine members
and three visitors present. Plans
were made to decorate a car for
the Juneau parade, attend the
Farm Women's Week and make a
trip to the Field Day at Lacombe.

Mrs. D. Pratt gave as her social
service topic, a report on Dr.
Hitchmonovus' work in Korea. It
made all present a little more
grateful for our bountiful country.
Mrs. B. Johnson of Didsbury was
guest demonstrator. She showed
the group how to convert a butter
box into a useful sewing hassock.
The contest and draw were won by
Doreen Pratt.

The August meeting was held at
the home of Mrs. J. Worrall, with
only seven members present. The
ladies reported on the Lacombe
trip. Two members gave a report
on Farm Women's Week at Olds.

Topics were chosen for the
home economist, who is to speak
next month at the home of Mrs.
Betty Olson. A discussion on money
makers took place and it was de-
cided that each hostess bake one
article to be raffled among mem-
bers at each meeting.

Mrs. J. Worrall gave an interest-
ing topic on United Nations, taken
from a TV program, General As-
sembly. Mrs. Troy Morgan then
showed films. The draw was won
by Mrs. Hamper.
